

Antwerp, 16 March 2020

Our ref. I/BR/00091/20.034/PVD
Subject COVID 19

Dear Sir or Madam,

As you know, in the last few days, the COVID-19 coronavirus has spread on an unprecedented scale, and the outbreak has been recognized by the World Health Organization as a pandemic on the 11th of March 2020.

The effects of this pandemic, which include containment and protective measures taken by public authorities, and which are also brought about, more generally, by our legal obligation of security towards our employees, now heavily impact our organization and the resources dedicated to the performance of our services.

Our business is impacted in several ways and all the entities in the entire organization are affected.

In light of the actual situation, the company implements telework/home working which could complicate the functioning of our teams and makes it more difficult to perform certain tasks. As a consequence, many employees are physically absent of the office.

The company imposes also restrictions on mobility and business travels.
Same measures can be taken by our partners and subcontractor(s) with same consequences.
We can assure you that everything is put in place to minimize the consequences of these measures on your project(s).

Nevertheless, the combined effects of these impacts could put the company in a position where it is materially or substantially impossible to carry out our obligations within the contractually agreed deadlines.

We will keep you informed in case of evolution of the situation.

Yours faithfully,

Pierre Van Den Eynde
CEO

Erik Van Celst
